McCarville Dairy Supplies
RETIRING NOTICE/ BUSINESS CLOSURE
FOR SALE

After 36 years of designing , developing, manufacturing supplies for farmers within the United States: this business is for sale.

Selling dies, molds, inventory, prototypes, wealth, of information.

This business was started in 1988, which we were in a partnership With upwards of 70 Holsteins and 200 acres, and developed Intensive Rotational Grazing . One of our customers, from Michigan has used Our products the last 30 years.

We did not just take orders daily, but we talked to every customer About the supplies, how to use them, as well as if they had any problems, they could call us any time to help figure out the issues. Over thousands of stories about the weather, crops, and family, ect I really find out that we had a very big family throughout the U.S. Paul & Laurie are so appreciative for our customers and hoping a company will continue to manufacture our products, and provide For our extended families, our customers.

Sincerely,

Paul & Laurie McCarville
